Ball made the jump to the NBA after being named the Most Valuable Player of the Detroit Pistons' youth camp in August, and the 17-year-old won the MVP honor again today at the LeBron James Skills Academy at Ford Field in Dearborn, Michigan. Ball's combination of athleticism and smarts impressed the NBA's superstars, who had him shooting free throws against them. "We're very excited to have a kid like Giannis in our camp," James told the Detroit Free Press, and when the Wizards' Avery Bradley was asked if Ball could be a point guard someday, Bradley replied, "You never know." "He's a special kid," said Pistons coach John Kuester. "He's had a phenomenal week." The Celtics' Evan Turner and Thunder's Andre Roberson were two other standouts, but some people were more impressed than others. Q: How do you call a python function from a custom decorator I am trying to call a function from a custom decorator. I am using Flask in this case. Autodesk Mdt 2009 Keygen.A novel approach to create ordered structures of polydiacetylene lipid bilayers. Polydiacetylene (PDA) is an ideal model to study the relationship between the molecular structure and the macroscopic properties of lipid bilayers. Herein we describe a chemical approach to create periodic arrays of ordered PDA lipid bilayers. A bilayer-forming lipid composed of a diacetylene moiety in the tail was synthesized and

I was just commenting that people who want to have an account on hackernews need not pay the money for HN++. Also, the stories that gets all the attention are the ones that attract the most number of up votes when it comes to karma. A post about a generic programming language like C# does not need to be voted on like a post with a programmer's musings about something. ~~~ seccess A submission should be voted on based on merit. "A submission about a generic programming language" does not deserve votes in my opinion because it is generally considered the wrong venue for content like this. Even if it does deserve votes, to incentivise it like "C# doesn't need to be voted on like a post with a programmer's musings about something" would be ludicrous. I don't think I'm misunderstood, nor is the premise as insane as you are making it out to be. You are not a HN++ customer and you should be glad of it. ~~~ uabstraction Your explanation rings truer to me. I knew something about Hacker News for some time, but I never came across the section that features programming related articles. It makes sense, and therefore I haven't visited it. ----- DanielRibeiro Great way to show the OP is a nice fellow. Showing that there are good people out there is also fun for yourself and for others. But good luck using the facebook api. ----- theGREENsuit Tried adding my current account's info, but it's not letting me. HN++ is not a service to be just for H
