Fifa 22 Product Key adds more than 45 new animation tweaks, each performed by experts at EA, to make players even more reactive and realistic. The speed and frequency of player animations are also tuned more dynamically than ever before, responding to player intensity and movement. "These tweaks to the game allow us to capture the nuances and intent of player action," says creative director David Rutter. "We've been able to adapt them to create even more authentic and immersive experiences." This new technology significantly enhances the feel and responsiveness of the game's game-changing animations, including the FIFA 22 Skills Engine. Interactive actions like sprints, transfers, through balls, offside, and other game-changing animations – such as the one that powers the goalkeeper's Crop Mechanic – are improved with more aggressive acceleration, faster response and more advanced timing. The new animation engine is used in both gameplay and in-game cut scenes. FIFA 22 delivers more intuitive and responsive controls, a ground-breaking new Skills Engine, and an improved media engine. FIFA 22 also introduces a renewed, top-of-the-line Physique and Visual Facial Capture technology. Further improvements in gameplay quality include more accurate ball physics, gameplay moments that have never been seen before in a sports game, and improvements for a deeper, more immersive experience. "FIFA 18 was a huge leap forward in sports video games, giving fans of the game a significant experience that players and most importantly, fans of the game will love," says EA SPORTS senior producer Mike Hickey. "We want to do the same thing for FIFA 20, but with even more improvements in gameplay, player abilities and experience." A Sport Vision Pack is included at launch for free on Xbox One and PC. The Sport Vision Pack includes the EA SPORTS Fight Night Round 2 and Madden NFL 20 highlights, Championship Retrains, and all-new Intuitive Dictation, which allows you to create and send personalized and quick text messages or tweets. FIFA 22 will be available on Nov. 3 for Xbox One, Windows 10 PC and Windows Phone for \$59.99 and for PlayStation 4 and Nintendo Switch for \$69.99.1.
