a huge factory or residential area, or simply build a small watchtower or city wall. It's all up to you. Advanced Sandbox Technology - Buildings, resources, and resources are acquired from the environment, not from a single-player unit. Watch out for the enemies you start creating in this world, as they are not usually friendly. Solve Problems In The Game - Use the enormous potential of the sandbox and your tools to repair buildings, solve conflicts, or just watch them crumble in one interesting and new manner every time. Real-Time City Building - The city grows as you play, with new buildings appearing as you go along. Every action makes a difference to the city, and you'll never know where your construction will take the city from here. Many New Tools - The sandbox gives you many opportunities for crafting items and building tools to improve your city and its service. Unique Game Features Glorious Real-Time Strategy Gameplay - Building your city is the focus of the game, with an emphasis on continuous gameplay and powerful tools. Unique Sandbox Environment - Build the world as you see fit, and watch as it changes with your actions. Expandable

Together we enjoyed tremendously creating and playing the game. This is our first "light" action game and from the feedback received, we discovered things we could improve: for example a more challenging game, more action, and a game that will last more than 2 hours. All these improvements and changes we made have resulted in a better overall gameplay, clearer and more varied gameplay, and improved artificial intelligence. Vamana looks awesome and is definitely our best game yet. Make your way through a scary 3D action adventure game and help The Knight escape from The Darklands.**
