

- The main objective is to jump around the levels to collect the stars that float on the level. You can easily collect them by jumping on them. - However, avoid the rotating saws that will try to cut you and shooting turrets that will try to shoot you. - You have to make a lot of jumps in-between the levels to complete it. - You can jump on moving platforms, platforms that disappear, platforms that only you can jump on for a specific amount of time and much more. - Collect as many stars as you can and avoid all the obstacles. - You will need to jump over rotating saws, jump over sections of the level that disappear and on moving platforms. - You can also jump to jump between platforms. - Use different items to reach the top of the level. - Jump forward and backward on the level to avoid enemies that want to cut you. - Use the item shop to collect items. - You will use one special item called the jump rope. Press start to use it. - You will get the rope that will help you to jump. - You need to press the rope button to activate it. - The rope will not disappear and you can use it as many times as you want. - You need to grab the rope by pressing it and holding it to jump. - You can also release the rope and jump without grabbing it. - The rope gives you a boost that will help you with jumps in-between platforms and will help to reach the top of the platforms. - You will need to jump over the saw that will cut you if it starts moving. Bouncing Ball Shooter 2 A new game in this series. This time you are going to use your rockets to collect a lot of stars and avoid the enemies that are trying to shoot you. Use them wisely! Escape the Rage Escape the Rage is a 2D action-puzzle game where you are trapped in a dark room and you only have a map of the room to help you escape the room. You have a limited amount of time to solve a level by finding keys and items and the deeper you get in the room, the longer you have to escape. All items and keys only open a door to a new room. You can only make 1 move. It is hard to avoid obstacles and collect items. The objective of each level is to escape the room. Flick

Features Key:

Three modes: Story mode (standard)

Tower of Destruction mode: fight your way up and destroy all towers

Hectic mode: climb to the top of the screen and kill as many enemies as possible in a limited time while collecting all the Balls and money.

For Android/PC players

This game was developed by **Dreampool Studios** (EKIP Thailand/futureye) as entry to "**The Game Giants**" Tournament. Another competition we had with the same goal was held with "**S.S.D.G.A.M.ING**" (USSG Thailand). In USSG competition, development team has worked together in the same environment.
